Animal Concern Cumbria

New Build Update

We are delighted seeing the new build progress. Whilst there is still much to do, we are hopeful for a reopening by the late Autumn. The indoor dog area has walls and the roof structure is underway. Cat pods have been erected and are awaiting electrics & water installations. The Utility block foundations are well underway.

Welcome

We are delighted to welcome Lauren & Sophie as Animal Care Team first recruits

Cat Garden

Our Thanks

It is with grateful thanks to generous legacies which has allowed us to improve and enhance our facilities. All this would not be possible without continued and ongoing support.

Please see our website for links to various ways support can be given to continue the work we do helping care for animals in our care & community.
